DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4 and 18, drawn to a composition of an adsorbent.

Group II, claim(s) 5-7, drawn to a process of making an adsorbent.

Group III, claim(s) 8-13, drawn to a process for recovery of para-xylene.

Group IV, claim(s) 14, drawn to a process for the separation of sugars.

Group V, claim(s) 15, drawn to a process for the separation of polyhydric alcohols.

Group VI, claim(s) 16, drawn to a process for the separation of nitrotoluene.

Group VII, claim(s) 17, drawn to a process for the separation of cresols.

The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is either obvious over or anticipated by Rosback (3,960,774). According, the special technical feature linking the seven inventions, a zeolitic adsorbent, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

Art Unit: 1764

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
